Report Notes

- Hail values represent maximum radar-estimated hail size for the listed date and distance from the property.
- Wind values represent estimated maximum gusts only for the listed hail dates; wind-only dates are not added to this report.
- A standalone HailBrief Wind Report reviews qualifying wind-only dates across the report period.
- Wind values below 35 mph are displayed as "< 35 mph." N/A means a wind estimate was unavailable, not calm conditions.
- This report provides advisory weather information and does not determine property damage, causation, or insurance coverage.
